KEMSONS TELENETWORKING WEATHERPROOF HORN LOUDSPEAKER are designed to organize local systems of loud-speaking technological communication, public address and security at production sites and open areas. They are used in conditions of extremely low and high temperatures, have a high level of protection against moisture and dust (IP66). All-weather loudspeaker enclosures are made of toughened ABS. They are highly durable, resistant to vibrations and mechanical damage, corrosion, salt fog and prolonged exposure to UVC. All-weather loudspeakers are used for sound notification - broadcasting voice information or alarm signals in industrial areas and open areas with a high noise level. Their applications are industrial enterprises - metallurgy, woodworking, thermal and hydroelectric power plants, drilling platforms, objects of construction and urban infrastructure - stadiums, playgrounds,

MODEL NO:
KTPLWSPK-02

Product Specification:

- **Product Type:** Weatherproof Horn loudspeaker.
- **Name:** WEATHERPROOF HORN LOUDSPEAKER
- **Model:** KTPLWSPK-02
- **Dimensions:**
Diameter: 300mm
length: 310mm
- **Power:** 100V LINE VOLTAGE
- **RATED POWER OUTPUT:** 15W RMS (5W/10W/15W)
- **SOUND PRESSURE:**
SPL@1KHZ:108dB/1W/1m
- **Frequency response:**
250-10kHz
- **Impedance:** 2K/1K/870ohm
- **Power tap:** 5/10/15W
- **IP-66 :** Water and dust Resistant,
- **Materials:**
SPEAKER Body- Toughened ABS
Plastic UV protected
- **Weight:** 2kg
- **Colour:** Light grey
